Supporting Graphics

If you would like to share Food Frontier’s report findings in an academic, commercial or government context, supporting graphics are available upon request.

Please contact info@foodfrontier.org with details of your presentation/publication/etc. to request.

**Supporting Graphics – Examples:**

1/3 of Australians’ average daily meat consumption is non-lean or processed meats

Find out why plant-based meats come out on top in Health Star Ratings on average: foodfrontier.org/reports

Aussies eat more than double the recommended amount of red meat and Kiwis eat 36% more than recommended

Annual meat consumption in Australia and New Zealand, per person (OECD, 2019). AU Dietary Guidelines Recommended Consumption; NZ Dietary Guidelines Recommended Consumption.
